## *July Project Site Visit*

### **Orlando Police Department HQ Facility**

Join SMPSCF Marketing Mechanics as we tour the new Orlando Police Department Headquarters Facility. This special project will stand as the new home for those who serve and protect the streets of our community every day. Currently, H. J. High is serving as design-builder for the 100,000 SF three-story tilt wall building that includes secured staff parking and is designed to meet LEED Gold Certification. The new facility will allow the OPD to equip their modern police force with the latest technology available in fighting crime. This new location will further support the City's public safety efforts, and play a key role in the revitalization efforts to our Parramore community.
